Received September, 2014

Accepted January, 2015

Open investigation: 11st April 2023

Retraction: 25th April 2023

On April 11, 2023, the author of the article was informed that following the editorial protocols of the JOTSE journal and the OmniaScience publishing house, an investigation had been opened for possible plagiarism, giving said author the opportunity to present his arguments.

No response was received from the author and in view of the obvious signs of plagiarism and the lack of justification on the part of the author, on April 25, and following the editorial guidelines and editorial ethics, we proceed to retract the article.
